

TSITOUCH

TAA COMPLIANT DISPLAYS

SECURE YOUR SENSITIVE DATA

At TSI Touch, we understand that data security is a top priority for government and industry professionals. That's why we provide a range of TAA compliant displays to meet the needs of our customers, including small format displays starting at 21". Here are some key features of our displays:

- **Designed to meet the highest standards for data security and reliability**
- **Backed by a three-year warranty for added peace of mind**
- **Ideal for government and industry professionals who work with sensitive data**
- **Wide range of display sizes and touchscreen options to meet specific needs**
- **Built to last with industrial-grade components and design**
- **Some models offer Wi-Fi and Bluetooth capabilities removed for maximum security**
- **Partnered with major display manufacturers for a range of larger display solutions**

At TSI Touch, we're committed to providing expert support and customer satisfaction throughout the selection, configuration, installation, and support processes. Trust us to provide the highest standards of security and reliability for your sensitive data.
