

PROTECTIVE SHROUDS

Many installations have unique requirements, so when our customers ask for a way to keep cabling and mounts hidden and secure while providing ventilation, we provide a solution. Our shrouds are flush with the wall allowing for a clean, professional aesthetic.

Advantages

- Flush against the wall for a professional look
- Hide unsightly cords and hardware
- Proper ventilation while still covering the mount
- Protection from unwanted cord or hardware vandalism
- ADA compliant
- Available with touch screen and protective solutions
- Easy installation
- Custom colors and branding available upon request

For a professional and clean appearance, look no further than our protective shrouds.
