Advanced Interactive Collaboration Solution

The TSItouch interface is an Infrared (IR) based solution, which allows for a high accuracy interactive experience. The usage of IR technology allows for virtually any input to be detected (pen/stylus, user's fingers, palms, gloved fingers). The TSItouch interface is a full steel chassis integrated with anti-reflective tempered cover glass, which increases durability and optical clarity, while protecting the display.

Multi-Touch Screen
 True multi-touch support with up to ten simultaneous touch points for all major operating systems

Easy Integration
 Unrivaled simplicity makes installation easier and faster

Ultra-Fast Response Time
 Allows for split second reactions between touch point and screen

HID Compliant
 Maximum compatibility with numerous operating systems, plug-and-play

Superior Design
 Full steel chassis combined with anti-reflective tempered glass provides additional protection to the LCD panel

Customizable
 Custom colors and silk screening available
