

NEC X651UHD 65" Integrated Touch Screen

Advanced Interactive Collaboration Solution

ShadowSense™ based solutions which allow for unparalleled performance when compared to any other interactive technology. Features such as superior palm rejection algorithms combined with the ability to accurately detect shape and size of touch objects create a user experience that is unrivaled in the marketplace. These features allow ShadowSense™ solutions to accurately detect the touching objects such as a pen/stylus, user's fingers, palm, or a special eraser, and report this data to the operating system.

Multi-Touch Screen
 True multi-touch support with up to ten simultaneous touch points for all major operating systems

Easy Integration
 Unrivaled simplicity makes installation easier and faster

Ultra-Fast Response Time
 Allows for split second reactions between touch point and screen

HID Compliant
 Maximum compatibility with numerous operating systems, plug-and-play

Superior Design
 Full steel chassis combined with anti-glare tempered glass provides additional protection to the LCD panel

Sunlight Immune
 Enhanced filtering and analogue sensors allow operation in bright conditions up to full sunlight
