

Philips 65" UHD Infrared Touch Screen Solution

PHILIPS

Infrared Interactive Solution

The TSI Touch solution is Infrared based, allowing for a high accuracy interactive experience. The usage of Infrared technology allows for virtually any input to be detected (pen/stylus, user's fingers, palms, gloved fingers). The TSI Touch solution is a cold rolled steel chassis integrated with tempered cover glass, which increases durability and optical clarity, while protecting the display.

Multi-Touch Screen
 True multi-touch support for all major operating systems. 10 simultaneous touch points are available.

Easy Integration
 Unrivaled simplicity makes installation easier and faster

Ultra-Fast Response Time
 Allows for split second reactions between touch point and screen

HID Compliant
 Maximum compatibility with numerous operating systems, plug-and-play

Superior Design
 Cold rolled steel chassis combined with tempered glass provides additional protection to the LCD panel

Customizable
 Custom colors and silk screening available

Specifications

Display Models	65BDL4150D
