

INFRARED TOUCH SOLUTION

43" Integrated Touchscreen Display

TSI Touch's Infrared (IR) solution for Samsung®'s 43" QC-series monitors allows for a highly accurate touchscreen experience. Through the use of Infrared technology, virtually any input can be detected (pen/stylus, user's fingers, palms, gloved fingers).

Our all-metal bezel construction, combined with high strength glass, adds considerable protection to the display, while also keeping your content crisp and bright.
