SECURE YOUR SENSITIVE DATA

Protect sensitive environments with TAA-compliant Sony displays, now available at TSI Touch. Designed for government and high-security applications, these models have Wi-Fi and Bluetooth capabilities removed, ensuring strict compliance with security standards.

BUILT FOR SECURITY, PERFORMANCE, AND RELIABILITY

High Security

- Wi-Fi & Bluetooth Removed: Ensures no wireless connectivity for enhanced security.
- TAA Compliant: Meets the stringent requirements of the Trade Agreements Act.
- Secure Hardware Design: Reduces potential vulnerabilities, limits remote access points.

Superior Performance

- 4K Image Resolution: Crystal clear visuals with superb color, contrast, and clarity.
- 24/7 Operation: Reliable for continuous use in demanding environments.
- Pro Mode Quick Setup: Easy and efficient installation.

Peace of Mind

- Standard Warranty: Full coverage backed by Sony's commitment to quality.
- Energy Star Certified: Environmentally friendly without compromising on performance.
- Government & Enterprise-Ready: Trusted by federal agencies and secure facilities for mission-critical operations.
